Alison Jasmin Tacoo Maturano

Systems Engineer · Software Developer · Programming Mentor

Santa Cruz de la Sierra, Bolivia · tacoomaturanoalison@gmail.com · +591 69490587 · LinkedIn

PROFESSIONAL SUMMARY

Systems Engineer with 2–3 years of experience building applications and digital solutions for business processes, especially in the agricultural sector, using .NET, APIs, databases and system integrations. Programming mentor for teenage girls and active member of women-in-technology communities. I enjoy finding practical ways to use technology to solve real problems, and I want to bring that mindset, along with my commitment to education and inclusion in STEM, to an international, youth-led community.

EXPERIENCE

Software Developer — Servisur Agrícola S.R.L.

Santa Cruz, Bolivia · May 2025 – Present

- Developed applications and digital solutions that improve business processes in the agricultural sector.
- Worked with .NET, APIs, databases and system integrations to automate and connect operations.
- Collaborated with business and technical teams to turn everyday operational needs into practical software.

Backend Developer (.NET) — Ágora Soluciones Informáticas a Medida

Santa Cruz, Bolivia · March 2024 – May 2025

- Built web and desktop applications in .NET for custom software projects.
- Worked both independently and as part of a team, learning quickly and adapting to new requirements.

LEADERSHIP & COMMUNITY

Programming Mentor — Nos gusta la Ciencia (NGC)

Present

- Mentor teenage girls taking their first steps in technology, teaching web development.
- Encourage creativity, problem-solving and confidence so they can build their own digital projects and see STEM as a field where they belong.

Tecnológicas 2024 — Women's technology empowerment program organized by i3 Impacto Social, with the support of the U.S. Embassy in Bolivia, Fundación Iguales and Fundación SOLYDES.

Women Techmakers & FicctLadies — Active participant in technology communities that promote learning, collaboration and women's participation in tech.

EDUCATION

Postgraduate Diploma in DevOps Essentials — School of Engineering, UAGRM · 2025

Software engineering practices, automation and modern technologies.

B.Sc. in Systems Engineering — Universidad Autónoma Gabriel René Moreno (UAGRM), Bolivia · 2019 – 2025

SELECTED PROJECTS

- **Agricultural-sector solutions** — Software projects focused on digitizing, integrating and automating business processes.
- **Web and desktop applications in .NET** — Developed for Ágora Soluciones Informáticas a Medida.
- **Inventory web system for electronic-device repair shops** — Presented at the UAGRM faculty fair (2022).
- **E-commerce web/mobile project** — Presented at the UAGRM faculty fair (2022).

TECHNICAL SKILLS

Development: .NET, C#, REST APIs, HTML, CSS, JavaScript, PHP, Laravel, Flutter

Databases: MySQL, PostgreSQL, SQL Server

Data & infrastructure: Python for data analysis (certified, Crack The Code), Linux server configuration, DevOps fundamentals

Other: Computer assembly and maintenance (certified, UAGRM)

LANGUAGES

Spanish — native · English — elementary (CBA certificate, 2024)

STRENGTHS

Problem-solving · Teamwork in multidisciplinary teams · Adaptability · Time management · Teaching and mentoring
